- Turkish – Native

Gyoksel Nazifov Ahmedov

Mid-Level .NET Full-Stack Developer

Profile

Mid-Level .NET Full-Stack Developer with over 5 years of experience building scalable web and enterprise applications using C# and Angular, with a focus on REST APIs, SQL optimization, and high-performance e-commerce systems.

Work experience

Full-Stack Developer – Obscene.Me (2024 – Current)

- Developed RESTful APIs using ASP.NET Core
- Implemented secure checkout and authentication processes
- Optimized MSSQL stored procedures
- Built responsive Angular user interfaces
- Performed performance and scalability optimizations

Tech: C#, .NET, Angular, SQL Server, RESTful APIs, Git, Docker

Full-Stack Developer – HellAuto.com (2023 – 2024)

- Developed a specialized e-commerce system
- Integrated real-time inventory management
- Implemented payment gateway integration
- Built advanced product filtering features
- Optimized backend performance using MSSQL

Tech: C#, .NET, Angular, SQL Server, RESTful APIs, Git

.NET Developer – Comsy54 (10/2021 – 04/2022)

- Developed web and desktop applications using .NET
- Designed and optimized MySQL databases
- Implemented RESTful APIs
- Maintained and extended enterprise systems

Tech: C#, .NET Framework, MySQL, RESTful APIs, Git

Projects

WebForMe.one – IT-Agency

- Developed modern corporate websites
- Focused on performance, security, and user experience (UX)
- Implemented responsive designs
- Provided technical maintenance and optimization

ngx-edge-slider – Angular Library

- Developed a reusable Angular 18+ library
- Designed a lightweight and customizable slider
- Optimized for performance and responsiveness
- Published as an open-source library for developers

Internal Messenger – Open-Source-Project

- Developed a lightweight messaging system
- Using .NET, and Razor Pages
- Integrated user authentication
- Built a scalable system architecture
